

# SUPPLEMENTAL INSTRUCTION (SI)

- Supplemental Instruction (SI) is offered in this course this semester.
- SI sessions are peer-assisted group study sessions that will be held three (3) times per week throughout the semester. Session attendance is voluntary, it's FREE, and you can attend SI sessions anytime they're offered.
- SI sessions are facilitated by an SI Leader, a student who has successfully completed this class and is dedicated to helping you and your classmates succeed as well.
- Students who regularly attended SI in this course last fall earned higher course grades (on average) than students who did not attend SI. SI is proven to help students improve their performance and persistence in this course!
- SI is for EVERYONE in this class. SI is designed to meet the needs of all students in this course. Come find out what SI is all about when sessions start next week!

# COMPARISONS BETWEEN STUDENTS WHO WENT TO SI AND THOSE WHO DIDN'T

CHEM 1314 (Fall 2016)
