

**This is ACA # 8. It is OK to use your textbook, but if you can answers the questions without it that is OK too.**

**I recommend you print out this page and bring it to class. [Click here](#) to show a set of five ACA8 student responses, randomly selected from all of the student responses thus far, in a new window.**

**John , here are [your responses](#) to the ACA and the [Expert's response](#).**

**1. For Exam I ;**

**[I had enough time](#)**

**Comments:**

**[nothing](#)**

**2. The easiest page on Exam I was,**

**[Page 5 \(Calculating enthalpy, entropy and free energy change for a reaction\)](#)**

**Comments:**

**[nothing](#)**

**3. The hardest page on Exam I was,**

**[Page 2 \(reactions, ionic and net ionic equations, and phase change of I<sub>2</sub>.\)](#)**

**Comments:**

**[nothing](#)**

**4. The Help! Session;**

**[Helpful](#)**

**Comments:**

**[nothing](#)**

**5. The sample Exam I ;****Helped me****Comments:****nothing****8. Is there anything about the questions that you feel you do not understand? List your concerns/questions.****nothing****9. If there is one question you would like to have answered in lecture, what would that question be?****nothing**
